“ I apologize for the late response, I was out of the country but I would be remised if I didn't comment. I knew Arica for many years and what struck me was at all times no matter what the situation was, she was a true professional. Arica had a great sense of humor and was always trying to find ways to go above and beyond to assist those who reported to her and who she reported to. Regardless of how bleak things seemed, Arica was always optimistic and never complained, what a fine example for all of us, she will be missed. Revelation: 21: 3-5

“ i worked with Arica at Verizon in Vahalla. From the first day she arrived in the office she and I shared a connection. We had similar philosophical interests and it was easy to find ourselves talking about spiritual things. When I left Verizon, Arica made a point to keep in touch, She would call and invite me to lunch and we would spend the hour and half catching up and talking. She would always challenge me to talk more about myself and always let me know that what was going on in my life was just as important to her as what she had going on in hers. Those lunches became a monthly occurrence and will always be a fond memory. I will miss her and the light that she was. My prayers and thoughts are with her family in their time of sorrow
